

"In the year 2000, the recycling and reuse industry sustained approximately 56,000 operations that employed over 1.1 million people, generated an annual payroll of nearly \$37 billion, and grossed over \$236 billion in annual revenues."

- U.S. Recycling Economic Information Study

## Why recycle?

- ➔ recycling can save you money
- ➔ products that are derived from recycling activities are less costly and perform at least as well as virgin materials
- ➔ green building codes, which are expanding rapidly, all require recycling as a central tenet

### Household Garbage

4.5 pounds per person per day

### Construction & Demolition Debris

4.72 to 6.61 pounds per person per day
